GREAT CHEMISTRY[®]

OUR FOUNDER

**FOUNDER & MANAGING
DIRECTOR
Mr. ASHISH PRADHAN**

ABOUT US

Innovations aside, our journey has been one of discoveries. Discovering an identity, when we began in 1996 as the exclusive business associate of Erma Inc. Japan.

Discovering people. The ones we work with, whose calibre fuels our own. The ones we work for, who keep us on the path of technological excellence.

Discovering success. From being a leader in diagnostic equipment and reagents manufacturer in India to establishing ourselves in the global market.

Discovering relationships. Training our workforce and distributors to efficiently operate and assist with our systems has been integral to our work-ethic.

Our manufacturing unit is both a source and consequence of our inspiration. Nestled in the mountains of Baddi, Himachal Pradesh, it employs cutting edge technology and stringent quality control measures.

Our greatest investment, however, remains in our people, forged by passion into a family of exceptional values. Ours is a world where personal growth is nurtured as lovingly as professional skill-sets are, and hierarchy takes a backseat to the sheer joy of embracing differences and freeing minds.

OUR PROFILE

We started in 1996 and become exclusive business associate of ERMA Inc, Japan, a 100-year old market leader in hematology analyzers.

Today, one of the largest diagnostic equipment and reagents manufacturer in India, we are determined to achieve the same success in the global market.

A customer driven company, we have dedicated resources for research & development, manufacture, sales and service of a wide range of diagnostic instruments and reagents.

We do everything with inherent core values of hard work, trust and honesty

Two decades ago, we started with the aim of providing the best healthcare systems in the world.

Today, we stand among the most trusted names in global healthcare.

We are ISO 9001:2015 certified for consistent customer-satisfaction and regulatory conformance, and ISO 13485:2016 certified for manufacture, export, import, sales and service of the entire range of laboratory diagnostic instruments and reagents.

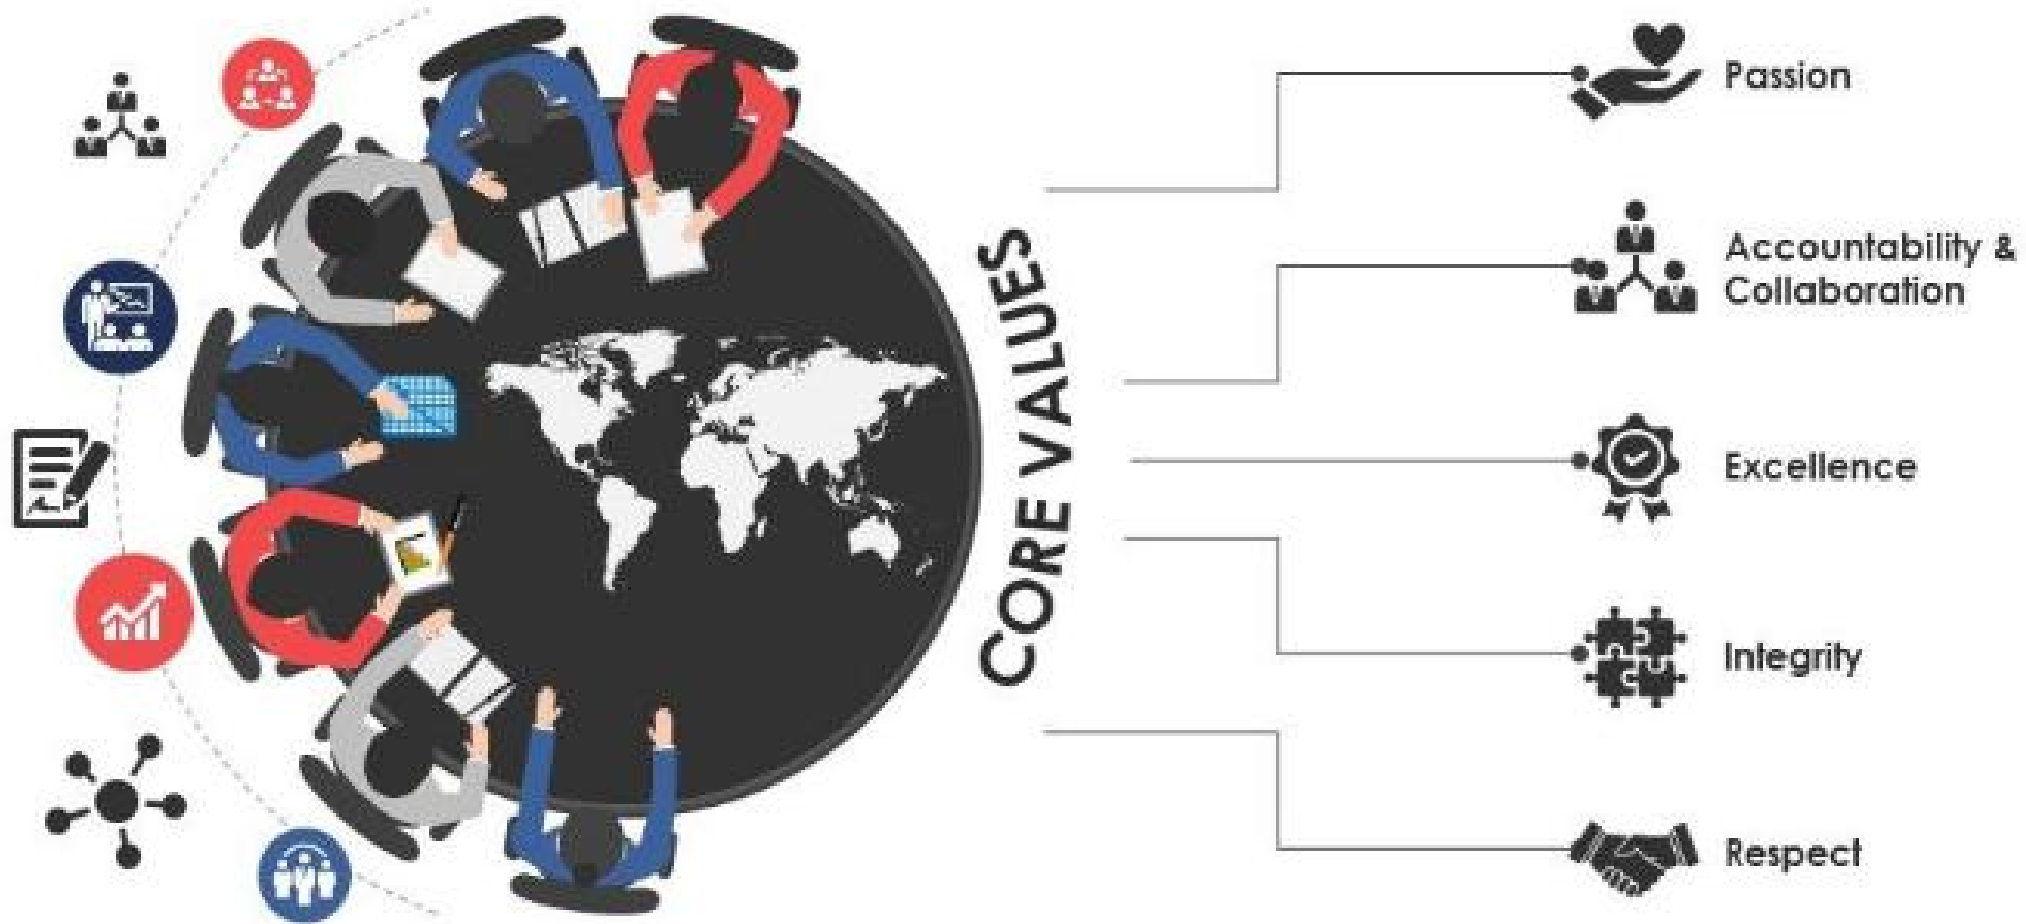

To become a global leader in Medical Diagnostics by providing the highest levels of cost-effective solutions to our customers, through continued research and development. Our core values are integrity, caring, innovation and excellence.

To become the benchmark for excellence in the medical diagnostics industry by designing, manufacturing and delivering products and services of the highest standards

CORE VALUES

OUR PURPOSE & VALUE PROPOSITION

"Great Technology"

delivering

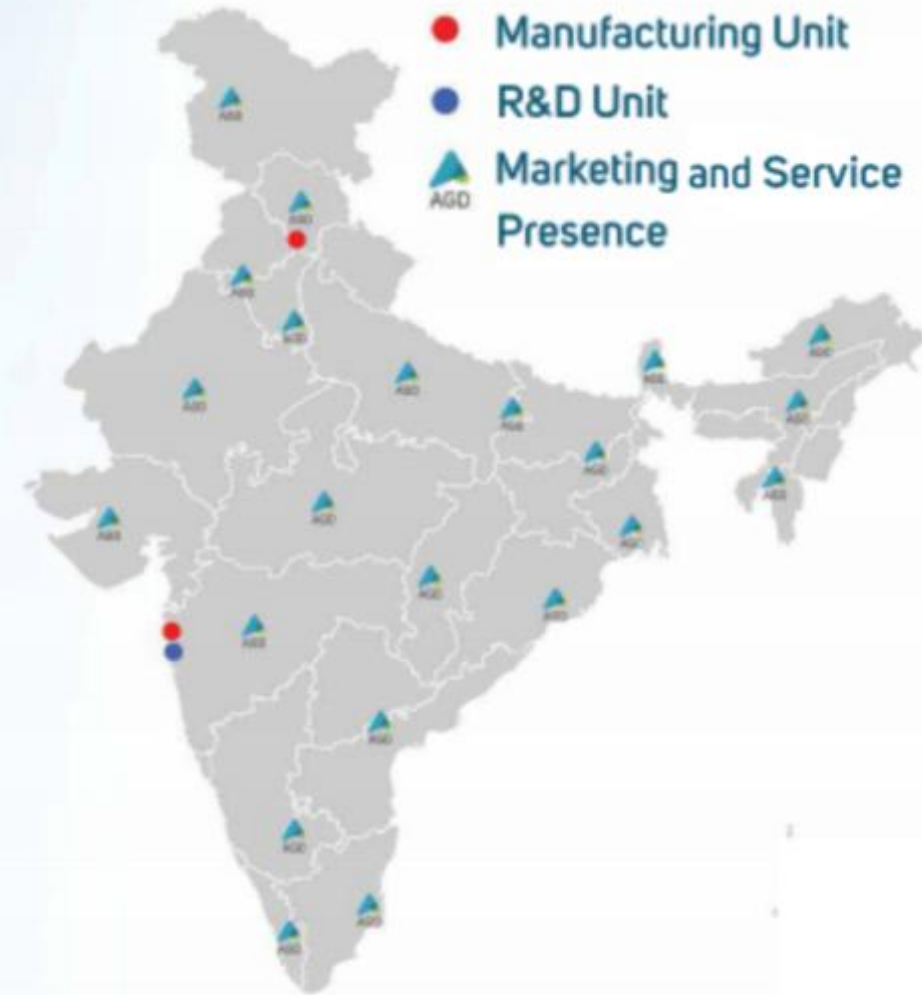

"Accurate Diagnostics"

at an

"Affordable Price"

OUR FOOTPRINT

- **EMPLOYEE STRENGTH - 300 +**
- **USERBASE: 15000 + Installations**
- **GLOBALPRESENCE - 20+ Countries**
- **Erma's International Marketing handled by us**

- Several Partnership with IIT Bombay
"IMPRINT" Funding from Ministry of Human Resource Development (MHRD) for development of Indigenous 5 Part Differential Counter
- 2 Teams:
 - R&D Instruments
 - R&D Reagents
- R&D : 75+ years Cumulative Experience
- 23+ projects executed
- In Development: AI Based Microscopy
- "Result is excellence"

In house Expertise

AGD JOURNEY

“ 25 years journey up the value chain in an everchanging market & resource crunched environment”

OUR SERVICES

● **On Field Staff Training**

● **Timely Customer Support**

● **Service & Application visits on customer sites**

● **Virtual Training platforms available**

● **24/7 support**

● **Customer Support Globally**
